

**NEW HAMPSHIRE ARTICLES**in **ROCKS & MINERALS** Magazine:

An Alphabetical Bibliography, including entries from  
World News on Mineral Occurrences (only page numbers of N.H. entries)  
and other references, however brief they may be.

Note on months of issues: Several years, particularly those from 1949 to 1964, and from 1978 to present (2011), have had 6 issues per year published, but designated by a double-month (such as July-August); in many cases only the first month of the two has been herein noted. A few other double-month issues were also published; see the table following the article listings.

ALBANESE, John S. 1951 Jan.

in World News on Mineral Occurrences (R&M) 26:40 (andalusite var. chiastolite, Lisbon).

ALBANESE, John A. 1959 March

in World News on Mineral Occurrences (R&M) 34:123 (quartz crystals at Black Mountain, Carroll County).

ANDERSON, E. & Sigrid? 1960 Sept

in World News on Mineral Occurrences (R&M) 35:465 (pink calcite from Franconia, in a short note sent in by the White Mountain Mineral Shop in Campton).

ANDERSON, E. & Sigrid 1961 March

in World News on Mineral Occurrences (R&M) 36:137 (blue quartz in triphylite at Palermo mine, North Groton).

ANDERSON, Jim 1961 July

in World News on Mineral Occurrences (R&M) 36:370 (brief note about quartz crystals in Nottingham – likely same place as following article by same author)

ANDERSON, Jim 1961 Nov.

New Hampshire has Quartz in Nottingham (R&M) 36:582-583 (the ridge).

ANDERSON, Jim 1962 July

in World News on Mineral Occurrences (R&M) 37:379 (apatite, pyrite, lazulite, etc. from Palermo mine in Groton).

ANDERSON, J.F. "Jim" 1962 Nov

Famous Ruggles Mine Visited! (R&M) 37:608 (Ruggles mine in Grafton run for tourists).

ANDERSON, Jim 1963 March

in World News on Mineral Occurrences (R&M) 38:144 ("snowflake" quartz at Globe mine in Springfield)

- ANDERSON, Jim 1963 July  
in World News on Mineral Occurrences (R&M) 38:369 (amazonite, beryl, etc. in outcrop in Manchester).
- ANDERSON, Jim 1964 May  
in The Micromounter, by Neal Yedlin (R&M) 39:259 (Palermo quarry in Groton, gummite and uranium ores at Ruggles mine in Grafton, apatite crystals at Keyes mine in Orange).
- ANDERSON, Jim 1965 June  
in World News on Mineral Occurrences (R&M) 40:417-418 (minerals he thought to be rhodonite and garnets in mica schist in roadcut by Wild Ammonoosuc River, Route 112 in Benton – but said Route does not pass through Benton; perhaps he meant in nearby Easton).
- ANDERSON, Sigrid 1961 Sept  
White Mountain Minerals Opens Diggings to Public (R&M) 36:451.
- ANDERSON, Sigrid 1963 Nov.  
in World News on Mineral Occurrences (R&M) 38:579 (small blue quartz crystals in triphylite at Palermo mine in Groton)
- ANDERSON, Sigrid 1964 July  
A Paradise for Explorers and Rockhounds (R&M) 39:356  
(an advertisement for Campton?).
- Anonymous 1944 Feb  
A Mineral Exhibit in New Hampshire (R&M) 19:34. (a very brief note on an exhibit in a library in Manchester)
- Anonymous Reader 1959 Nov  
in World News on Mineral Occurrences (R&M) 34:497 (autunite and uranophane, and uraninite, found at Palermo mine in Groton).
- ARMSTRONG, James V. 1961 Sept.  
Giant Crystals of Hurricane Mountain (R&M) 36:467 (in Conway).
- BABCOCK, Marie T. 1965 Jan.  
Joppa Hill and Old Granite Quarry, Amherst, N.H. (R&M) 40:26-27

- BJAREBY, Gunnar 1950 Sept  
in World News on Mineral Occurrences (R&M) 25:500 (bertrandite crystals at Beryl Mtn., Acworth; brazilianite crystals at Newport; twinned amblygonite, beryllonite crystals at Smith quarry in Newport).
- BJAREBY, Gunnar 1953 Sept  
in World News on Mineral Occurrences (R&M) 28:486 (Smith Quarry in Raymond, several species found)
- BJAREBY, Gunnar 1955 Sept  
in World News on Mineral Occurrences (R&M) 30:482 (in the Maine entry: a very brief mention of wardite at Beryl Mtn. in South Acworth).
- BJAREBY, Gunnar 1957 March  
in World News on Mineral Occurrences (R&M) 32:131 (roscherite at Chandler Mills mine in Newport)
- BJAREBY, Gunnar 1958 Jan.  
in World News on Mineral Occurrences (R&M) 33:20 (Nancy mines in North Groton, and graftonite).
- BJAREBY, Gunnar 1959 Jan.  
in World News on Mineral Occurrences (R&M) 34:10 (wardite at Chandler Mills mine in Newport).
- BJAREBY, Gunnar 1961 Jan.  
in World News on Mineral Occurrences (R&M) 36:35 (brief note on Palermo beryl mine in North Groton, and of small crystals of sulfur and fluorite – neither of which were later listed in the article by Segeler, et al., 1981).

- BJAREBY, Gunnar 1961 May  
in World News on Mineral Occurrences (R&M) 36:250 (bertrandite crystals at Palermo mine in Groton).
- BJAREBY, Gunnar 1962 Nov.  
in Fifty Years of Mineral Collecting, Part V (R&M) 37:565-568 (on pages 565-566, the Big, Golding-Keene mine in Alstead, granite quarry in Amherst, N.H.)
- BJAREBY, Gunnar 1964 May  
in World News on Mineral Occurrences (R&M) 39:253 (quartz with negative casts after pyrite, galena and anglesite at Ruggles Mine in Grafton).
- BJAREBY, Gunnar 1964 July  
Fifty Years of Mineral Collecting, Part VI (R&M) 39:353-356 (includes list of strunzite occurrences; and Parker Mtn. mine, known as Buzzo mine, Strafford, with species listing).
- BJAREBY, Gunnar 1965 May  
in World News on Mineral Occurrences (R&M) 40:339 (bismuth found at Newry, Maine, and in a radioactive specimen from Ruggles Mine in Grafton, N.H.).
- BJAREBY, Gunnar 1965 July  
Fifty Years of Mineral Collecting, Part VII (R&M) 40:491-493 (visits to, species found at Ruggles mine in Grafton).
- BJAREBY, Gunnar 1967 Feb.  
Huhnerkobelite found in New Hampshire (R&M) 42:96 (Palermo mine in Groton, and the mine in Newport).
- BLAKE, Evelyn B. 1960 July  
Mineral Club Year Book (R&M) 35:354 (Southeastern New Hampshire Mineral Club Year Book; first one, 1959, published; with comments).

## NOTES:

World News on Mineral Occurrences: Included in this list are only the N.H. entries, and their page numbers are only of those entries. Entries have been listed under sender's name where known; otherwise by the column conductor.

World News on Mineral Occurrences was conducted by Peter Zodac until 1966;  
conducted by Thomas J. McMahon from 1967 to 1969,  
conducted by V.T. King from 1977 to 1993.

Rochester Mineralogical Symposium, Abstracts: RMS Abstract refers to abstracts from the Rochester Mineralogical Symposium subsequently published in *Rocks and Minerals* magazine.

Each set of abstracts (in an individual issue) is usually titled something similar to "37th Rochester Mineralogical Symposium – Contributed Papers in Specimen Mineralogy" although in the past there have been some slight variations in wording; check the originals for their wording. For brevity, abstracts herein included have been listed under the author's names, and titles of the abstracts, and only include the page numbers of the abstracts, with the note of the RMS abstract in the annotations.

An entry, of unconfirmed provenance is not in the list, so is included here instead:

MILLER, F. William 1987 May

"Locality Information Sought" in *Museum Notes and Announcements (R&M)* 62:194 (a beryl crystal of unusual morphology, a hexagonal pyramid, etched, at Harvard University lacks provenance documentation, and Dr. Frondel had once said that "his recollection was that it had come from someone in Maine or New Hampshire." No further information is currently available as to whether this mystery was ever solved).

\* in the November-December 1985 issue of *Rocks and Minerals* (v.60, #6), in the Letters column on page 261, was published a question about an apparent error on the November 1940 issue in which its front cover was printed "October 1940" (however, its title page, within, has the correct month of November printed) – this was a misprint as the editor explained. The editor's explanation also mentioned that the number of issues per volume published over the years has varied, has sometimes been 4, or 12, or 11, 10, or 6 issues per year or volume, and that the first year of publication (1926) there were only two issues.

Some of the issues of *Rocks and Minerals* were of double-month issues (such as July-August), although in many listings only the first month of the issue has been retained (such as July). The following table may help explain the system used in various years:

ROCKS AND MINERALS magazine

Number of issues per year, and to which months they refer:

1926	2 issues	September (#1), December (#2)

1978-2015	6 issues/year	January-February (#1), March-April (#2), May-June (#3), July-August (#4), Sept-Oct (#5), Nov-Dec (#6).

To find the volume # of a year, subtract 1925 from its year – this gives its volume  
(1926 is volume 1, its first year)
